PROFESSIONAL SUMMARY

Experienced Computer Vision Engineer with 15 years specializing in Data Science & ML. Strong analytical and problem-solving skills with a data-driven approach to decision-making. Track record of leading initiatives that resulted in significant performance improvements and cost savings.

WORK EXPERIENCE

Senior Data Scientist — CRED, Gurugram

2024 – Present

- Published research paper on transformer models for document classification
- Designed real-time anomaly detection system for IoT sensor data
- Deployed recommendation engine increasing click-through rate by 18%
- Developed NLP pipeline processing 1M+ customer reviews with 89% sentiment accuracy

Senior Data Scientist — DataPulse, Austin

2021 – 2024

- Built GenAI solution for automated content generation reducing cost by 45%
- Deployed recommendation engine increasing click-through rate by 18%
- Developed A/B testing framework used across 20+ product experiments

Senior Data Scientist — Microsoft, Hyderabad

2019 – 2021

- Reduced customer churn by 23% using predictive ML model
- Deployed recommendation engine increasing click-through rate by 18%

Computer Vision Engineer — Startrek Technologies, Mumbai

2017 – 2018

- Reduced customer churn by 23% using predictive ML model
 - Built fraud detection model with 97.3% accuracy reducing financial losses by \$2M annually
-

EDUCATION

M.S. Information Security — Carnegie Mellon University

Graduated: 2020 | Grade: 3.7 GPA

TECHNICAL SKILLS

Kubeflow • NLP • Scikit-learn • Deep Learning • Feature Engineering • A/B Testing • Power BI • MLflow • Pandas • Keras • Python • PyTorch

KEY PROJECTS

Resume Screening ML Model: NLP-based classifier using BERT to shortlist candidates; 91% F1 score vs manual 73%.

Customer Segmentation: K-Means + PCA segmentation of 500K customers enabling personalized campaigns.
